

JuNiki's®

DOUBLE ≠ NECK®

Thanks for buying  
this Original

JuNiki's® Double Neck®  
bottle – the perfect choice  
for your child.

**JuNiki's® Double Neck®,  
the perfect bottle for children:**

Current bottles for young children are not perfect at all: Not leak proof, not easily to be filled or refilled by the child itself, spill-free drinking almost impossible, not to be used with perishable drinks, ...

That is the reason why we developed JuNiki's® Double Neck®:

Easily to be filled/refilled, spill-proof, leak-proof and very hygienic.

✓ **Easily to be filled/refilled,  
spill-proof:**

JuNiki's® Double Neck® is having two openings: A smaller one perfectly sized for drinking without spilling directly from the flask, and a bigger one for easy refilling by the child. Due to the angled opening the bottle can be refilled almost horizontally under the smallest faucet.

✓ **Leak-proof:**

JuNiki's® Double Neck® is leak-proof, also with carbonated drinks.

✓ **Very hygienic:**

- ① Transparent body: You can see inside the bottle and identify any dirt.
- ② Wide mouth body: Easily to be cleaned
- ③ Caps being connected to the bottle, not to get lost or dirty
- ④ Drinking opening covered against dirt.
- ⑤ Conscious decision against closing mechanism fostering mold
- ⑥ Only using safe materials, BPA-free
- ⑦ Dishwasher-safe

JuNiki's®

DOUBLE ≠ NECK®

JuNiki's® Double Neck® is being engineered in Germany by a father, international patent applications have been filed.

**tritan™**  
from eastman

This bottle has been produced in China using BPA-free Tritan™ Copolyester from Eastman Chemical from the USA.
